Bring your people closer to contemporary drawing

Drawing Room is a leading centre for contemporary drawing, championing drawing as an art form in its own right and exploring its possibilities through ambitious exhibitions, artist-led conversations, a specialist research library and learning programmes.

We are Europe's only public venue entirely dedicated to the art of drawing and since 2002, we have worked to expand understanding of drawing: not simply as a preliminary stage of making, but as a vital way for artists to think, research, experiment and communicate. Our programme brings together exceptional artists, curatorial expertise and opportunities for people of all ages to discover drawing for themselves.

As a charity, we rely on the support of individuals, trusts, organisations and Arts Council England to deliver our work. Corporate partnerships help us sustain our programme, support artists and make meaningful encounters with drawing accessible to wider audiences.

We are part of **Tannery Arts CIO,** a charity comprising of Drawing Room and affordable studio provision – established by artists in a Bermondsey Street warehouse in 1993.

DRAWING ROOM

A different perspective for your business

Drawing offers a distinctive way to engage people: encouraging close observation, curiosity, experimentation and new ways of thinking. Through our exhibitions, library, artist conversations and learning activities, we can help businesses create thoughtful cultural experiences for their clients, colleagues and wider networks.

Partnership opportunities can include:

Exhibitions partnerships: support ambitious exhibitions

Private tours and client hospitality: discover our exhibitions through a curated talk or private events

Creative workshops: offer staff or clients a hands-on opportunity to explore drawing and creative thinking.

Learning and community partnerships: support children, families and people who face barriers to experience & make art.

Corporate recognition: raise your company's local profile in Southwark and across our network of patrons, artists and collectors with acknowledgement across our communications.

In-kind partnerships: explore opportunities to contribute services, expertise or resources that support our work.

DRAWING ROOM

Let's create a partnership!

We work with businesses to create partnerships that connect their interests with our distinctive focus on drawing.

Whether you want to support a particular exhibition, create an experience for your clients or colleagues, or help more people discover the possibilities of drawing, we would welcome a conversation.

Drawing Room welcomes more than 11,000 people to its exhibitions, events, workshops and specialist library each year, alongside a digital audience of more than 120,000. These figures offer one measure of our reach; at the heart of every partnership is the opportunity to support a distinctive organisation dedicated to the practice, understanding and appreciation of contemporary drawing.
