## 3 A MOVING PLAN B: CHAPTER ONE, SELECTED BY THOMAS SCHEIBITZ

Drawing Room, London  
16 September - 31 October

It can be fascinating to witness firsthand some of the artistic points of reference and inspirations of an artist you admire. If Thomas Scheibitz's brilliance at merging the illusion of abstraction with signs of figuration in his own work is echoed in his curatorial approach to bringing together drawings by well-known and less familiar names, then this show is sure to sparkle. *Chapter TWO*, Scheibitz's simultaneous solo presentation at Sprüth Magers, London, ensures his own voice is clearly audible in this potentially absorbing conversation.
