PREVIEW **exhibitions**

■ **Lucia Nogueira** LONDON

The late Brazilian artist Lucia Nogueira devised playful installations that exposed the fragility of life. Parodying the Don't Touch rule in museums and galleries, her wondrous exhibition at The Anthony Reynolds Gallery in 1995 had visitors picking their way through shards of glass and avoiding

strands of sticky tape. This exhibition features 40 drawings made between 1988 and her death in 1998, and depict a collection of odd, childhood characters together with delicate sketches of planned installations. JL

Drawing Room, Tannery Arts, E2, Fri 27 to Jul 10
