Art Education Jobs

A two-venue exhibition exploring the relationship between drawing and photography, taking place at Drawing Room and The Photographer's Gallery, London.

Drawing and photography are each considered the most direct, 'transparent' media with which to engage with the world. They share fascinating parallels: the relationship to the indexical, the blank sheet of paper or surface, graphite and silver, pencil weight and aperture, the sense of an invisible 'apparatus' (the camera and pencil), the engagement with surface, light, negative and positive and the trace. *Double Take* seeks to explore the multifarious ways photography and drawing practices.
